# Agenda

## Sustainability: the long view

- ❑ Is there an inherent contradiction in developing long term solutions when uncertainty reigns across the globe?

Industry sector focus – shippers discuss their strategies (plastics, food & drink, waste, retail)

- ❑ Think Tank and ongoing dialogue with World Meteorological Organisation

Expert panel debate: sustainability in the procurement decision. What is coming and where should we invest?

- ✓ *Assessing and managing risk in the world's most volatile environments* **Stephen Cahill** Global Logistics Coordinator, World Food Programme

- ✓ *Europe's evolving relationship with China and Belt & Road: implications for the structure of international trade?* **Prof Michele Geraci** former Under-Secretary of State, Government Italian Republic

- ✓ *Logistics as a service: are the tools now available to make synchromodality viable?* **Shippers, intermodal providers and technology companies debate**
